FEATURES

-  FLEXIBLE MATERIAL RESISTS BREAKAGE
-  MULTIPLE MOUNTING POSITIONS
-  UV INHIBITORS GREATLY EXTEND PRODUCT LIFE
-  SOFT COMPOSITION RESISTS BURSTING UNDER FREEZING CONDITIONS
-  NO SPRING CALLBACKS FOR CRACKED PIPES

ABOUT

The P-Trap that you have been waiting for is finally here! Introducing the Drain Mate RTUV. It is designed for Rooftop Packaged HVAC units and it addresses problems that are common to this application! No more snapping the trap when a service technician brushes against it - as they are usually brittle. No more freezing and bursting PVC - as the flexible design nearly eliminates the ability to crack under freezing conditions. No more UV problems - as the material incorporates aggressive UV inhibitors to extend product life in sunny harsh environments.

APPLICATION

- 3/4" PVC Coupling pipe will fit Drain Mate RTUV ID
- 1" PVC will fit Drain Mate RTUV ID
- Multiple Mounting Methods, see above
